^a Method outside the scope of accreditation.

The above results concern only the sample we examined.

Partial reproduction is prohibited without the written permission of multichrom.lab.

n.d. - not detected. LoQ - limit of quantitation of the method (the concentration of a substance at which quantitative results can be reported with a high degree of confidence for the given analytical procedure).

Uncertainty is based on the combined standard uncertainty calculated using a K factor = 2 for assuring a confidence level of 95%.

¹Limits according to: EU 2568/91 as in force today,
